

PROFESSIONAL EXPERIENCE

Associate Software Developer in Test

2024 - Present

Tecsys Inc | Montreal, QC, Canada

- â€¢ Spearhead quality assurance initiatives for enterprise supply chain and distribution software
- â€¢ Execute comprehensive performance testing protocols for mission-critical business applications
- â€¢ Develop and maintain automated testing frameworks supporting continuous integration workflows
- â€¢ Collaborate with cross-functional teams to ensure software reliability and performance standards
- â€¢ Conduct risk assessments and provide technical recommendations for production deployments

Quality Engineer

2021 - 2023

LTIMindtree | Chennai, India

- â€¢ Implemented comprehensive testing strategies for large-scale enterprise applications
- â€¢ Optimized application performance through systematic bottleneck identification and resolution
- â€¢ Established quality assurance protocols and testing standards across development teams
- â€¢ Mentored junior team members in testing methodologies and automation best practices

EDUCATION & QUALIFICATIONS

Master of Engineering - Electrical & Computer Engineering

University of Windsor | Windsor, ON, Canada

Specialization: Artificial Intelligence, Machine Learning, and Signal Processing
Relevant Coursework: Advanced Algorithms, Computer Vision, Neural Networks

Bachelor of Engineering - Electronics & Communication Engineering

Sri Venkateswara College of Engineering | Chennai, India

Academic Excellence: Strong foundation in software engineering principles and methodologies

KEY ACHIEVEMENTS & METRICS

- â€¢ Achieved 90% test automation coverage, reducing manual testing effort by 75%
- â€¢ Successfully validated performance for 700+ concurrent users in production environments
- â€¢ Implemented enterprise-level quality assurance processes improving release reliability
- â€¢ Developed AI-powered portfolio website demonstrating modern development capabilities
- â€¢ Contributed to multiple high-impact projects spanning healthcare, e-commerce, and fintech domains

FEATURED PROJECT PORTFOLIO

Smart Shop - Intelligent Food Price Analysis Platform

Comprehensive web application leveraging machine learning for food price comparison and market analysis.

â€¢ Developed real-time data processing pipeline with advanced visualization dashboard

â€¢ Implemented predictive algorithms for price forecasting and market trend analysis

â€¢ Integrated responsive design ensuring optimal user experience across all devices

Technologies: React.js, Node.js, Python, MongoDB, Chart.js, Machine Learning APIs

LeadConnect - AI-Powered Customer Relationship Management

Enterprise-grade lead management system incorporating artificial intelligence for enhanced customer insights.

â€¢ Architected intelligent lead scoring algorithms with automated nurturing workflows

â€¢ Developed comprehensive CRM integration with advanced analytics and reporting capabilities

â€¢ Implemented machine learning models for customer behavior prediction and segmentation

Technologies: React.js, Node.js, PostgreSQL, AI/ML Libraries, RESTful APIs

Eco-Finds - Sustainable E-commerce Ecosystem

Full-stack e-commerce platform promoting environmental sustainability through intelligent product curation.

â€¢ Engineered advanced search and filtering system with sustainability impact metrics

â€¢ Implemented secure user authentication and payment processing infrastructure

â€¢ Developed comprehensive product lifecycle tracking and environmental impact assessment

Technologies: React.js, Express.js, MongoDB, Stripe API, Environmental Data APIs

Brain-Computer Interface Research & Development

Advanced research project focusing on EEG signal processing and neural pattern recognition systems.

â€¢ Developed sophisticated signal processing algorithms for real-time brain activity analysis

â€¢ Implemented deep learning models for neural pattern classification and interpretation

â€¢ Conducted comprehensive research on brain-computer interface applications and methodologies

Technologies: Python, TensorFlow, Signal Processing Libraries, MATLAB, Neural Networks

Medical AI - Congestive Heart Failure Detection System

Healthcare-focused artificial intelligence system for early detection and diagnosis of cardiac conditions.

â€¢ Developed advanced ECG signal analysis using convolutional neural networks

â€¢ Implemented clinical data processing pipeline with diagnostic accuracy optimization

â€¢ Conducted extensive validation testing ensuring medical-grade reliability and precision

Technologies: Python, TensorFlow, Medical Imaging Libraries, CNN, Healthcare APIs

Enterprise Vehicle Loan Management System

Comprehensive financial management platform for automotive lending and loan processing operations.

â€¢ Architected automated approval workflows with integrated risk assessment algorithms

â€¢ Developed sophisticated financial calculation engine with comprehensive reporting dashboard

â€¢ Implemented secure document management and compliance tracking systems

Technologies: Java, Spring Boot, MySQL, Angular, Financial APIs, Security Frameworks

TECHNICAL EXPERTISE & COMPETENCIES

Quality Assurance & Testing Technologies

â€¢ Performance Testing: Apache JMeter, LoadRunner, K6, Artillery
â€¢ Test Automation: Selenium WebDriver, Playwright, Cypress, TestComplete
â€¢ API Testing: Postman, REST Assured, SoapUI, Insomnia
â€¢ Testing Frameworks: TestNG, JUnit, Pytest, Mocha, Jest
â€¢ Mobile Testing: Appium, Espresso, XCUITest

Programming Languages & Frameworks

â€¢ Primary Languages: Java, Python, JavaScript, TypeScript
â€¢ Additional Proficiency: C++, SQL, HTML5, CSS3, Shell Scripting
â€¢ Frontend Frameworks: React.js, Angular, Vue.js, Bootstrap, Tailwind CSS
â€¢ Backend Technologies: Node.js, Express.js, Spring Boot, Django, Flask

Database Management & Cloud Technologies

â€¢ Database Systems: MongoDB, MySQL, PostgreSQL, Oracle, Redis
â€¢ Cloud Platforms: Amazon Web Services (AWS), Microsoft Azure, Google Cloud Platform
â€¢ DevOps Tools: Jenkins, Docker, Kubernetes, GitLab CI/CD, GitHub Actions
â€¢ Version Control: Git, GitHub, GitLab, Bitbucket, SVN

Artificial Intelligence & Machine Learning

â€¢ Machine Learning Frameworks: TensorFlow, PyTorch, Scikit-learn, Keras
â€¢ Deep Learning: Convolutional Neural Networks, Recurrent Neural Networks
â€¢ Data Processing: Pandas, NumPy, Matplotlib, Seaborn, OpenCV
â€¢ Specialized Areas: Signal Processing, Computer Vision, Natural Language Processing
â€¢ Agentic AI: Large Language Models, Prompt Engineering, AI Automation

Development Environment & Tools

â€¢ Integrated Development Environments: IntelliJ IDEA, Visual Studio Code, Eclipse, PyCharm
â€¢ Project Management: Jira, Confluence, Trello, Azure DevOps, Monday.com
â€¢ Collaboration Tools: Slack, Microsoft Teams, Zoom, Google Workspace
â€¢ Design & Prototyping: Figma, Adobe Creative Suite, Sketch, Canva

PROFESSIONAL AVAILABILITY & CONTACT

Current Status & Availability

â€¢ Location: Ottawa, Ontario, Canada | Timezone: Eastern Standard Time (EST)
â€¢ Employment Status: Full-time at Tecsyst Inc, Available for consulting and collaboration
â€¢ Remote Work: Experienced in distributed team collaboration and remote project delivery
â€¢ Response Time: Professional inquiries answered within 24 hours

Professional Interests & Goals

â€¢ Continuous learning in emerging technologies and quality assurance methodologies
â€¢ Contributing to open-source projects and knowledge sharing within the QA community
â€¢ Exploring advanced AI/ML applications in software testing and quality assurance
â€¢ Building innovative solutions that bridge the gap between technology and user experience

This portfolio represents a comprehensive overview of professional capabilities and experience. Generated: 2024-11-01. Confidential.
